

SECURE SIDE

PRL's Bullet Resistant Glass features a proprietary construction, tested to UL752. It absorbs impacts and keeps fragments bonded for enhanced safetv.

Ideal for entrance doors, cashier windows, and a wide range of **security** applications.

Available Protection Levels 1 to 8

Full Range/ No Spall Protection

Exclusive make-up glass, **PVB** and **Polycarbonate** abrasin resistant coating

Minimum Size 12" x 12" Maximum Size 60" x 96"

In-house laminated glass with the **fastest** lead-times

Glass

- Clear
- Tinted
- Low-Iron
- Reflective

Tested & Certified:

Independently verified by global security standards.

UL 752 BULLET RESISTANT GLASS

Available Level 1-8 with the Fastest Leadtimes in the Industry, Our bullet-resistant laminated glass, is designed for applications where optical clarity is a requirement

NIJ 0108.01 BULLET RESISTANT GLASS

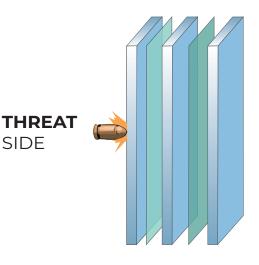

Available Level 1-8 with the Fastest Leadtimes in the Industry, Our bullet-resistant laminated glass, is designed for applications where optical clarity is a requirement

PRL 1001 | **LEVEL 1**

SECURE SIDE

Design Considerations

- Low Spall Solution
- Standard Laminated Safety Logo

Protection Level

UL Level 1 - Low Spall

9 mm Full Metal Copper Jacket with Lead Core

Thickness

1.16" +/- .060"

Weight

14.5 psf

Size

12x12(minimum) 60x96 (maximum)

*Larger Sizes Available With Review

Installation

PRL recommends that all glass be installed in a Bullet Resistant frame system. Ballistic rated covering devices shall cover all holes with a UL listed device.

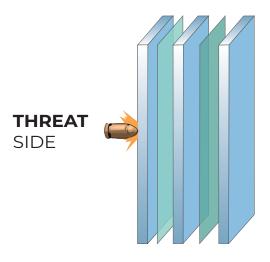

All glass should be installed in accordance with the auidelines set forth in the current edition of the National Glass Association with GANA, Glazing and Sealant Manuals. Glazing systems should incorporate a weep system to allow moisture and water to escape the glazing channel.

Applicable Standards

PRL 2001 | **LEVEL 2**

SECURE SIDE

Design Considerations

- Glass can be constructed with tinted Glass and other custom solutions.
- Glass clad POLYCARBONATE abrasion resistant coating

Protection Level

UL Level 2 - No Spall

.37 Magnum Jacket Lead Soft Point

Thickness

0.960" +/- .060"

Weight

10.6 psf

Size

12x12 (minimum) 60x96 (maximum)

*Larger Sizes Available With Review
