ULTRA NARROW STILE DOOR WS 450 SERIES

PANIC HANDLE PL-100F-ADA SERIES

F style handle is a full height tubular bar, constructed from 1 1/4" diameter tubing, which runs from the top to the bottom of the door in line with the panic device's vertical rod.

The F style pull not only gives all glass doors an elegant appearance but also reduces deflection and adds rigidity to the glass. For this reason the F style exterior pull handle is frequently used on taller glass doors.

MATERIAL:

1-1/4" Stainless Steel Tubing
Glass Thickness: 1/2" 3/8" 5/8" 3/4"

CERTIFICATION:

ANSI/BHMA A156.3-2008
